THAT'S
THE
DIFFERENCE.

South County Hospital Healthcare System is a full-service, not for profit, regional health care resource serving residents and visitors to southern Rhode Island, the state's fastest growing area. At the core of the South County Hospital Healthcare System is a 100-bed hospital offering virtually every type of medical and surgical care. You'll find the hospital facilities provide the highest level of technology and comfort to our patients and their families. We opened a new state-of-the-art Orthopedic Center in May of 2007 and the beautiful new 60-bed inpatient Frost Family Pavilion in January, 2008. Current plans for future facility enhancements include the relocation of our ICU, and a new Cancer Center. Additionally, construction is underway for a new East Greenwich Medical Office Building, to open this summer.

Here, we know that caring means staying involved with both our patients and dedicated staff. For this reason, we continually work together to achieve our goal of excellence in health services. It is a collaboration between physicians, staff and community that allows us to stay in touch with one another, make a difference in the community, and provide you with an exceptional place to work.

We are presently seeking the following:

BAYSIDE MEDICAL GROUP, INC

Oakland, CA

Pediatric, Family &
Travel Medicine
www.baysidemed.com

Bayside Medical Group is a well established primary care practice in the San Francisco East Bay. We have lots of pediatricians in multiple offices; a smaller but very important part of our group is our FAMILY PRACTICE component. Our FPs practice in our Berkeley and Alameda offices. Our model is two physicians, each practicing at both sites, and several midlevels. Our senior FP, Jim Eichel, has been with us for over a decade. We are seeking another FP to complement him, serving patients and helping to supervise and consult with our very competent midlevels.

Administrative duties are largely taken care of by the group, so our clinicians get to practice medicine. We are big enough to be professionally managed, but small enough to be personal, caring, and very patient centered. We try to be very supportive of one another, and to cooperate in making our lives enjoyable and our medicine strong. Our working conditions are good, our pay and benefits competitive, our on-call duties not onerous.

This is a fine opportunity for a physician who likes to practice collegially. One doesn't get rich in family practice or in the Bay Area, but living here is great, and we get to practice a good brand of medicine.

FREE RESOURCE FOR RESIDENTS & FELLOWS

Residents and Fellows.

It's time to start considering practice opportunities.

There are thousands of hospitals and single- and multi-specialty groups with opportunities available for you to consider. How do you find and win exactly the right practice opportunity?

NewPhysician has the answers.

NewPhysician is a free resource that was created to help residents and fellows get the information necessary to make informed choices in their careers. During the past five years, NewPhysician has helped thousands of residents and fellows evaluate opportunities by providing answers to questions like: Will I get to live wherever I wish? What do the compensation surveys indicate I should expect for my specialty? How can I successfully negotiate for help paying off my loans? What are "income guarantees" and how can they benefit me? Will this job be in the type of organization in which I would like to work? Will I get to treat the patients and conditions I want to treat? How often will I have to take call? What hours will I be expected to work? What does each element in a contract mean and how does each apply to my situation? How will I learn the business of medicine, how to successfully operate my practice? What questions should I ask during the interview? When will a decision be expected? Who should mentor me in my first months in my own practice?

You're just a call or click away. For more info contact: NewPhysician, (866) 756-0003, www.newphysician.com

RIVERSIDE MEDICAL GROUP

Coastal Virginia

Riverside Medical Group (RMG) is the largest multi-specialty group in Virginia with over 300 physicians across all specialties. RMG is a not-for-profit subsidiary of **Riverside Health System**, one of the nation's strongest healthcare providers, which has three outstanding hospitals (also a not-for-profit, community-based organization). The flagship facility, Riverside Regional Medical Center, is located in Newport News, Virginia, and is a newly renovated, state-of-the-art, 576-bed community hospital. RRMC supports three residency programs and draws from a population of approximately 600,000. The two others are Riverside Tappahannock Hospital, located in Tappahannock, Virginia, and Riverside Walter Reed Hospital, located in Gloucester, Virginia, both of which are community hospitals each under 100 beds.

There currently exists several outstanding Family Practice opportunities located in this scenic, coastal region of Virginia in the communities of **Newport News, Hampton, Gloucester, Tappahannock, and Williamsburg**. Enjoy quick access to the beauty of nature, water activities and a variety of cultural and sporting amenities. Parenthood magazine designated this region as the #2 best place in the US to raise a family.

PROVIDENCE HEALTH & SERVICES

AK, CA, MT, OR & WA

55 Exciting Family Practice Opportunities in the West!

Providence Health & Services is an award-winning, nonprofit health system with a 150-year tradition of excellence in the West. With hospitals, clinics, physician groups and private practice partners in Alaska, California, Montana, Oregon and Washington, we offer physicians diverse career choices, rock-solid stability and ample cross-specialty support.

Our founders, the Sisters of Providence, came to the West in the mid 1800s on a mission to serve people who were desperate for medical care. The founders' compassion and pioneering spirit remain driving forces at Providence.

We are growing to serve and are seeking high-quality and committed Family Practice candidates to fill 55 exciting practice opportunities in urban, suburban and rural settings across the West. We have another 250 physician opportunities in other specialties. Be sure to check our Web site for the latest details.

Current Family Practice opportunities:

Alaska: Who says medicine and moose don't mix? Who says you can't have high tech in the office and high mountains or high-jumping salmon right out your office door? With our highly integrated network of excellent facilities and providers in Alaska, we say you can have sophisticated medicine and the continent's most spectacular wilderness. At the same time.

Current opportunities in: **Anchorage, Kodiak, Valdez and Wasilla.**

California: Life in Southern California is all about choices. Let's see... Cajun or Cambodian or Ethiopian for dinner? Disneyland or dude ranch or Laguna Beach for the weekend? An evening lecture at USC, UCLA, or maybe the Los Angeles Film School? Snoop Dogg, U2 or Plácido Domingo? Oh, but there are some constants: our fabulous weather, and the exceptional care provided at the four Providence hospitals and numerous clinics in the area.

Current opportunities in: **Burbank, Mission Hills and Torrance.**

Montana: When most people think of the Montana Rockies, they picture soaring granite peaks, big blue skies, fat feisty trout or cattle ranches tucked against forested foothills. We don't have a problem with that. But we know there's more, eg., St. Patrick Hospital and Health Sciences Center, our innovative, cutting-edge 240-bed tertiary center in Missoula. Next time you hear "Montana," think medical excellence, and think Providence.

Current opportunities in **Florence and Missoula.**

Oregon: Where else can you put in a full day of work in the city and by evening be: A) at the beach finishing off a meal of fresh Pacific salmon; B) cuddled before a roaring fire in a mountain lodge; or C) camping on a high desert river with nothing but stars and coyotes for company? If you answered with any of our locations in western Oregon, you'd be right.

Current opportunities in **Gresham, Hood River, Phoenix, Portland, Sherwood and Wilsonville.**

Washington: Providence and Washington go way back. To 1856, to be precise. We've grown with Washington's communities, some of which have grown a lot and some that might still be considered "in the middle of nowhere." The great thing is, "in the middle of nowhere" is the best place in the world to some folks, and our physicians in those locations have the support and resources of major Providence medical centers in bigger cities nearby. Everybody's happy.

Current opportunities in **Centralia, Chewela, Deer Park, Everett, Lacey, Mukilteo, Olympia, Snohomish and Walla Walla.**

Please contact our in-house Physician Services & Development team to discuss opportunities in greater detail: Kristine McChesney, Toll Free: 1-866-504-8178, PSD@Providence.org
