APEX MEDICAL GROUP, INC.

Central Valley of California

Family practitioner needed for a medically underserved patient populated area of the Central Valley of California to administer healthcare in a rural health clinic. Seeking BC/BE candidates with H1 or J1 visa may apply.

Fax resume to (209) 826-0199 or email barbierndeb@hotmail.com.

BAYSIDE MEDICAL GROUP, INC.

Berkeley and Alameda, CA

Bayside Medical Group is a well established primary care practice in the San Francisco East Bay. We have lots of pediatricians in multiple offices; a smaller but very important part of our group is our FAMILY PRACTICE component. Our FPs practice in our Berkeley and Alameda offices. Our model is two physicians, each practicing at both sites, and several midlevels. Our senior FP, Jim Eichel, has been with us for over a decade. We are seeking another FP to complement him, serving patients and helping to supervise and consult with our very competent midlevels.

Administrative duties are largely taken care of by the group, so our clinicians get to practice medicine. We are big enough to be professionally managed, but small enough to be personal, caring, and very patient centered. We try to be very supportive of one another, and to cooperate in making our lives enjoyable and our medicine strong. Our working conditions are good, our pay and benefits competitive, our on-call duties not onerous.

This is a fine opportunity for a physician who likes to practice collegially. One doesn't get rich in family practice or in the Bay Area, but living here is great, and we get to practice a good brand of medicine.

- a dynamic and collegial team of clinicians and leaders
- a competitive compensation package, including fringe benefits
- access to loan repayment
- 100 percent liability, license and hospital privilege fees.

Feedback from Attendees at Past CareerMD Career Fairs

"I am glad to have been part of the career fair in New York. It was a great venue for me to get in contact with future opportunities. I think it was a well-organized and well-planned event."

"As a first-year fellow who did not actively seek opportunities outside academia during residency, this event was an excellent way to meet with individuals in the community and introduce myself more to the possibility of practice outside of the university setting. I thought it was a good size event (not too many or too few people to talk with), and that the individuals I met with were quite knowl-

edgeable about the situation in their community (even beyond their own institutions)."

"The Career Fair was very helpful in my search for an Addiction Psychiatry position. I was able to network, get tips on geographical locations and current hospitals of interest."

"Just wanted to thank you for the great job fair that you and CareerMD.com organized here in Boston. I found excellent opportunities and information from all the employers. Thanks a lot!"

"Thanks for organizing the career fair. I enjoyed it and I got to meet a lot of prospective

employers - I have contacted two since that time. Space was well-distributed, and I also appreciate that you sent out a list of which hospitals were looking for which spots, so I could read in advance and focus my search."

"Thank you for the invitation to the excellently planned and well-run recruitment fair. The experience was more than I had ever expected. I spent a lot of time with the recruiters in Family Practice and I was able to establish a network and introduce myself to these people. I also met many folks of Hospitalists groups and mingled with them also."
