

Leading Physician Employers

Employment opportunities from these and many other organizations:

REGIONAL HEALTH, INC.—Pediatrics Opportunity in the Beautiful Black Hills! Join Regional Health Physicians, a fast growing, integrated multi-specialty group that employs approximately 75 physicians throughout the Black Hills. Call is 1:2/3 with attendance at C-sections and other high risk deliveries plus responsibility for stabilization and transport to NICU within 50 miles. Physicians have privileges at Spearfish Regional Hospital, a modern 45-bed tertiary care center serving a population area of 40,000. Spearfish is a picturesque, family orientated university town of 13,000 (23,000 metro) nestled along I-90. 45 minutes from Rapid City, it is the second fastest growing city in the State and is a metropolitan rich area offering a diverse mix of industry, tourism and business. It is a gold medal school district and home to Black Hills State University, South Dakota's third largest university. Located near five National Parks, Spearfish offers abundant year-round recreation for the whole family including skiing, rock climbing, mountain biking, hiking, fishing, camping, water sports and golf. Strong family values and excellent educational opportunities make it a wonderful place to live and low cost of living paired with no state income tax means you bring home more of your income to enjoy all the Black Hills has to offer! Call today for more information on this fantastic practice opportunity! Tracey Kennedy, Physician Recruitment Specialist, Tel: (605) 716-8396, Email: tkennedy@rchr.org

LIBERTY HOUSE— is seeking a Board Certified or Board Eligible Pediatrician or Family Practice Physician. Candidates are welcomed to apply directly from training or with experience. Liberty House is a non-profit child abuse assessment center. Liberty House provides assessment services for children for whom there are concerns of child abuse or neglect utilizing a multi-disciplinary approach. more information, please contact Gretchen Bennett, Liberty House Executive Director, at 503-540-0407 or at gbennett@libertyhousecenter.org

PENN STATE HERSEY CHILDREN'S HOSPITAL AND THE PENN STATE COLLEGE OF MEDICINE— Academic Neonatologist. The Division of Neonatology at the Penn State Hershey Children's Hospital and The Penn State College of Medicine is seeking candidates for two faculty positions at the Assistant, Associate, or Professor level. Preference will be given to applicants with outstanding clinical skills and demonstrated research productivity. Investigators with clinical, basic, and translational research interests are encouraged to apply. Current research within the Division includes the areas of neonatal pain and stress, immunology, host defense, lung injury, retinopathy, and technology development. Junior faculty or fellows in their final year of training with a strong academic orientation are encouraged to apply as well. Selected candidates will join six neonatologists, four neonatal fellows, and four neonatal nurse practitioners in the support of a busy, 36-bed, Level 3C Newborn Intensive Care Unit at the Hershey Medical Center. The program features full surgical and subspecialty support as well as an active ECMO program. The NICU is the referral center for central Pennsylvania and admits more than 500 patients annually. The College of Medicine and the Department of Pediatrics strongly support physician-scientist development, and considerable resources are available for established or promising individuals who wish to devote the majority of their time to these endeavors. The College and Children's Hospital are located within a single structure providing ready access of investigators to the basic sciences and the College's extensive core facilities. One of the two positions is earmarked for an established physician-scientist (a physician who will spend more than 50% effort in research), and the other position is earmarked for an academic physician who will

devote most of his/her effort to clinical care and teaching. Interested candidates should contact Dr. Charles Palmer, MB.ChB, Chief of the Division of Newborn Medicine at 717-531-1358 or via e-mail. Penn State Hershey Children's Hospital is an Equal Opportunity/Affirmative Action employer and encourages applications from women and members of minority groups. H1B opportunity.

ST. AGNES HOSPITAL— Stable group of Pediatric Emergency Medicine Physicians in Baltimore, Maryland is looking for an excellent physician to add to their team! St Agnes Hospital. 81,000 ED visits annually in the 308 bed full service community teaching hospital. The Pediatric ED is a 10-bed part of the ED, staffed 32 hours/day with Pediatricians and Peds EM Physicians. The 49 bed ED includes the Main ED, Chest Pain ED, Urgent Care Center and Pediatric ED. Baltimore has much to offer with its exciting Inner Harbor area, Camden Yards ballpark, the National Aquarium, museums, and over one hundred community festivals, and events organized yearly. Baltimore is home to many institutions of higher learning, great teaching and research hospitals and is within a one-hour drive to Washington, D.C. and its cultural, political and educational resources. For more information, please contact: Jennifer Korando, Physician Recruiter. 800-247-8060 ext 25035, jennifer_korando@emcare.com

MICHIGAN STATE UNIVERSITY – COLLEGE OF HUMAN MEDICINE— Department of Epidemiology. Post-doctoral Training in Perinatal Epidemiology The Department of Epidemiology at Michigan State University provides post-doctoral training in the field of Perinatal Epidemiology, with support from an NIH T32 training program. Trainees receive health benefits, tuition payment, a fund for research supplies and conference travel and an annual stipend between \$37,740 - \$52,068, depending on number of years since award of doctoral degree. The fellowship is open only to U.S. citizens and permanent residents. Appointments

are for one or two years. We will be awarding two post-doctoral positions for the 2011-2012 academic year. Fellowships usually begin between July and September, but could begin as early as May 2011. Perinatal epidemiology is a field of study that uses epidemiologic approaches to investigate human health phenomena occurring during pregnancy and the perinatal period, both as outcomes of interest or as exposures that may lead to adverse health states in later life. The aim of the training program is to prepare individuals to lead cutting-edge epidemiologic research in the field of perinatal epidemiology. The Department of Epidemiology at MSU has eight faculty members whose research in whole or in part addresses disorders of pregnancy and the perinatal period, and is home to several NIH-funded research projects exploring preterm delivery, perinatal brain damage, pregnancy diet and exercise, neurodevelopmental disorders, perinatal infections and pregnancy immunology. The collaborating Department of Pediatrics and Human Development hosts a regional prenatal screening service, and has research projects investigating the molecular epidemiology of Group B streptococci, the role of stem cells in cancer development, and the genetics of attention deficit disorder and hearing impairment. Faculty are strongly committed to mentoring and teaching. The collaborating Department of Obstetrics and Gynecology investigates infertility, assisted reproductive technologies, twinning, and risk screening for adverse birth outcomes.

To apply, please send an email describing your interest in the training program, accompanied by a CV, to the Program Director, Nigel Paneth, MD, MPH, Professor of Epidemiology and Pediatrics and Human Development, at npaneth@epi.msu.edu

FALLON CLINIC— the largest private, multi-specialty group in central Massachusetts, was founded in 1929 by a team of physicians from Mayo Clinic led by Dr. John Fallon.
